Basins

Crafted from highly durable Caroma ceramic, the Liano Basin Collection's modern thin rim design is smooth, stain-resistant and available in a stunning range of colours.

Pair with the striking range of the Liano Tapware Collection or elevate your basin look with our optional new dress ring accessory – both with six beautiful and durable colour finishes – chrome, matte black, PVD brushed nickel, PVD brushed brass, PVD gunmetal and PVD brushed bronze with optional pop-up plug and wastes available in the same colour range.

ABOVE COUNTER BASIN

Above counter basins are installed directly on top of a vanity with minimal installation requirements.

INSET BASIN

Inset basins are partially set into a vanity reducing the appearance of the basin rim without reducing the depth of the bowl. Some inset basins will also feature an integrated tap landing.

UNDER/OVER COUNTER BASIN

Mounted underneath your vanity for seamless lines and no visible appearance of the basin rim.

HAND WALL BASIN

Hand wall basins are installed directly to the wall, specially designed for small ensuites and powder rooms to maximise space.

Kitchen Sink Mixers

The Liano II Kitchen Sink Mixer Collection is the perfect balance of design and functionality. Available in multiple functions and a varied colour palette, this collection can be tailored to let your personal expression and culinary passion shine. Environmentally friendly, durable and hard wearing, our premium PVD finish will keep your kitchen looking stunning for years to come. All mixers have a water efficient WELS 5 star flow rate (6L/min) with an optional ultra-water efficient WELS 6 star (4.5L/min) flow.

COOL START DESIGN

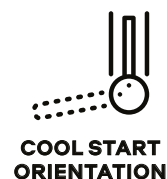

With energy efficient Cool Start design, only cold water flows initially, so your pipes are not filled with hot water unnecessarily. Only when you deliberately move the lever to the left does hot water get added.

MULTIPLE ROTATION LOCKS

Standard Mixer Taps, 70°, 140° or 360° rotation angles (single and double bowl).

Pull-out Mixer Taps 70° or 140° rotation angles (single and double bowl).

Pull-Down Mixer Taps 140° rotation angle (double bowl).
